

Premier Foods Group

**Fresh, Organic, Farm-to-Table Beef, Chicken, Fish, & Pork,
“Just as Nature Intended”**

Partner with us and save 10% on your first order!

Identifying and purchasing safe, “clean proteins” from “all-natural” sources is tremendously difficult and time consuming. Premier Foods Group (PFG) is an innovative, family owned, farm to table food company specializing in all-natural meats and wild caught fish. They control and manage the entire process from the breeding program (excluding fish) to **free home delivery**. Fuel your family with the safest, healthiest, and most physiologically compatible food on the planet. Our prices are typically 12-15% less than comparable all-natural/organic “store bought” products. Proceed to our web site and fill out your food preference form. You will be sent an order review and invoice. If you are satisfied with your order simply pay the invoice and your order will be activated. [Contact Wayne Coolidge re: health benefits & discounts](#)
